## Composer search survey

Last Updated 08/29/2019 12:25 Created By Ryan Gladstone | Published 08/28/2019 10:56 PM  
PM

The Composer team is working on improving the search experience and would like your input.

In order to serve more relevant results, the default Composer search experience will no longer traverse the entire document and all associated metadata. Instead, Composer will specify which fields to check whenever you enter a free text search.

Our initial plan is to consult the **following fields**, Based On The Fields That Are Indexed in the Content API.

If you see an important field that isn't currently bolded and underlined, submit your request [here](#):

# Arc Learning Center Composer search survey

\* Required
